How to Use the Updated MPN Tracker Tools

We've listened to insights from patients and Healthcare Professionals in the MPN community to create a straightforward and easy format for tracking symptoms, activities, blood counts, procedures, and medical appointments.

THESE EASY-TO-USE TOOLS ENABLE YOU TO:

RATE the severity of your MPN symptoms—and see a visual display of how they affect your activities over time

RECORD your key blood cell counts—and identify changes or trends in your levels

NOTE the dates of procedures and appointments—so you know where you need to be when

DOWNLOAD the Voices of MPN Mobile Tracker app—understand and share the impact of your MPN with your Healthcare Professional

ENHANCEMENTS TO THE MPN TRACKER TOOLS INCLUDE:

A focus on common symptoms and their impact on your activities

Simplified symptom scoring based on mild-moderate-severe ratings

An easy-to-read dashboard

A downloadable Voices of MPN Mobile Tracker app for iOS and Android
